

## Story Lead

**THE COALITION TO NULLIFY THE CORRUPT OBAMA TASK FORCE** consists of family and friends of individuals maliciously prosecuted and incarcerated under the Obama Executive Order 13519.

The "Task Force" is one branch of the "Poisonous Obama Tree," the root of which is **"HACKSAW."**

"Hacksaw" stands for:

**Holder**  
**Comey**  
**Strzok**  
**Weissmann**

...and their ilk, including Lois Lerner, Andy McCabe, et. al.

We believe "Hacksaw" was directed by Obama himself.

## HISTORY

Beginning in early 2009, the "Hacksaw" team intentionally set out with calculated malicious forethought, to sabotage any current or future political influence of conservatives and/or Republicans.

We believe Obama's scheme, as carried out by "Hacksaw," unfolded step-by-step as follows:

1. Early 2009: Silence the conservative message by oppressing and suppressing the creation of certain non-profit organizations whose mission interfered with Obama's long-term agenda. Politically weaponize the IRS (Lois Lerner) to accomplish that objective.
2. Late 2009: Under the false pretext of holding accountable those responsible for the Great Crash of 2008, politically weaponize the DOJ to remove thousands of successful business owners, thereby removing Republican voters and donors, (and their families) from the equation for at least the two subsequent voting cycles. Incarcerating a father effectively incarcerates an entire family.

3. 2009 - 2016: According to its own admission, the Obama Administration targeted and incarcerated 15,000 such individuals, affecting an estimated 100,000 family, friends, employees, etc.
4. When President Trump came on the scene, "Hacksaw" tried to do to him what it did to the non-profits and to the 15,000 task force victims. President Trump thwarted "Hacksaw," et. al. Surely President Trump can empathize with the 15,000. After all, "Hacksaw" tried to make Trump number 15,001.

The actions of the corrupt Obama task force are Exhibit A for why criminal justice and prison reform is so desperately needed.

A curious investigative reporter could drill down on the issues stated herein to take it from anecdotal observations to bedrock fact.

## **CONCLUSION**

The political weaponizing of government agencies began in 2009.

We believe the Obama Administration schemed to destroy the Republican party by neutralizing thousands of Republican and/or conservative voters/donors and their families.

We believe that instead of going after the "big-dogs" who caused the great crash of 2008, "Hacksaw" went after conservative voters en masse, individuals influential enough and numerous enough to affect the outcome of future elections, but small enough to not raise suspicion in the media.

The individuals behind the imprisonment of the 15,000 are the same ones behind the attacks on President Trump.

## **ACTION SOUGHT**
